AU 2315C	315.25?	-	Mohur	1094	26	AH date and RY not clear. The coin has the 4 of AH 1094 visible at lower left and the RY on the edge. The AH date ending in 4 indicates the RY has a 6 and not a 9 and it makes sense for it to be issued in this AH 1094 transition period with a mihr couplet like the earlier type rather than in AH 1104 or 1114 since no coins were issued then with the mihr couplet to create a mule.
